THE CIVIL LITIGATION FIRM

Childcare/Preschool

Our experienced team assists childcare centers, preschools, and other similar facilities and their employees in investigating and defending a variety of claims, including allegations of corporal punishment, shaking, inappropriate touching, inadequate supervision, unsafe or unsanitary facilities, formula tampering, and more. We successfully defend such claims at trial, arbitration, and mediation, and we are well-versed in the issues that arise from initial investigation through appellate proceedings. Understanding the complex web of relevant state and federal laws and regulations, and the various agencies that uphold and enforce them, presents unique challenges for any childcare practitioner. We are fully equipped to meet these challenges.
